TANZA, CAVITE, PHILIPPINES
mendoza.marcangelo28@gmail.com
github.com/Necko0204

01 / PROFILE

Information Technology graduate and Full Stack Web Developer with hands-on experience building responsive web platforms, secure portals, client-facing websites, and workflow-driven systems. A background in customer support, virtual assistance, lead generation, and community management strengthens communication, adaptability, and practical understanding of business operations.

02 / EXPERIENCE

Full Stack Web Developer - Freelance

DIRECT CLIENT - INDONESIA

JUNE 2026 - PRESENT

- Developed and maintained a responsive full-stack order and task management platform.
- Created dedicated Customer, Admin, and Super Admin portals using React, TypeScript, Vite, and Firebase.
- Implemented authentication, product management, orders, balances, top-ups, withdrawals, commissions, notifications, and database security.
- Improved mobile responsiveness, bilingual support, workflows, and deployment.

[STACK / React / TypeScript / Vite / Firebase / GitHub](#)

06 / FEATURED PROJECT

Full-Stack Order & Task Platform

A responsive business platform developed for an Indonesian client with dedicated Customer, Admin, and Super Admin experiences. Built around practical order, account, and task workflows with security and mobile use treated as core requirements.

SECURE ACCESS	Authentication, role-based portals, and database security
OPERATIONS	Products, orders, customer balances, commissions, and notifications
WORKFLOWS	Top-ups, withdrawals, bilingual support, and mobile-responsive interfaces

07 / PERSONAL STRENGTHS

Problem solving	Communication	Adaptability
Fast learning	Customer empathy	Workflow thinking
Technical skills build the product. Understanding people helps build the right product.
